

## DR. NICOLE TWIGG, DVM

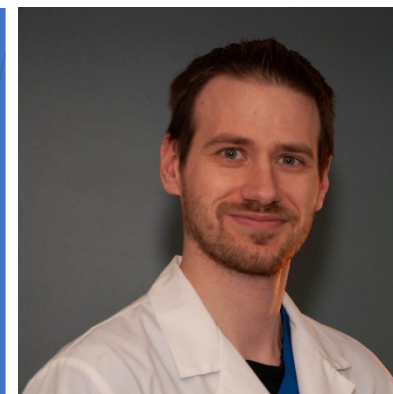

Graduated: Virginia Tech - May 2012      Joined WVC: May 2012

*"After over 10 years in practice, my classmates are shocked to hear I am at the same clinic I started in when I graduated. Many of them have had 5+ different unsatisfactory jobs since graduation. I tell them that I feel incredibly lucky to have immediately found a practice with a team culture of respect, a great sense of humor, and a goal of continued excellent patient care. We have the whole package of work ethic, knowledge, and fun."*

## DR. CHEVY WELSH, DVM

Graduated: Kansas State University – May 2012      Joined WVC: June 2012

*"What first brought me to and has kept me at the Waynesboro Veterinary Clinic is the team atmosphere here. Everybody wants you to succeed both as a professional and just as importantly as a person. The collaboration between doctors and all positions on patients and cases, the mentoring, and the opportunity for growth is unique and amazing here. It is just one of those things which you have to see and experience in order to believe."*

## DR. JILLIAN ATKINS, DVM

Graduated: Purdue University - May 2014      Joined WVC: June 2014

*"I have worked at WVC since 2014 as an associate veterinarian. I love coming into work each day because of the fun, family environment. As a new graduate, I was able to receive extensive mentorship in both surgery and internal medicine. As a more experienced clinician, I love that I have a great working team with whom I can still consult with when needed and the ability to explore and grow my personal professional interests through great CE opportunities."*
